

North Slope, Alaska: Environmentally Sensitive Areas Map 4

BIOLOGICAL RESOURCES:

BIRD:

RAR#	Species	S	F	T	E	J	F	M	A	M	J	J	A	S	O	N	D	Nesting	Laying	Hatching	Fledging
44	Ookpik																	JUN-JUL	-	-	JUL-SEP

FISH:

RAR#	Species	S	F	T	E	J	F	M	A	M	J	J	A	S	O	N	D	Spawning	Eggs	Larvae	Juveniles	Adults
6	Arctic char																	SEP-NOV	SEP-JUN	SEP-JUN	-	-
	Arctic char																	SEP-NOV	SEP-JUN	SEP-JUN	-	-
	Chum salmon (dog)																	AUG-SEP	AUG-JUN	AUG-JUN	-	-
	Pink salmon (humpy)																	AUG-SEP	AUG-JUN	AUG-JUN	-	-

TERRESTRIAL MAMMAL:

RAR#	Species	S	F	T	E	J	F	M	A	M	J	J	A	S	O	N	D
10	Caribou																
15	Moose																
20	Dall's sheep																

PURPOSE

This series of maps provides a regional overview of the environmentally sensitive resources of the North Slope of Alaska from Point Barrow to the Canadian border. The maps show environmentally sensitive areas along the coast, including the Arctic National Wildlife Refuge, the Gates of the Arctic National Park, and the Toolik Lake Natural Research Area. The maps also show the Trans-Alaska Pipeline and the various Native Corporation lands. The maps are overlaid with a grid of latitude and longitude coordinates.

DEFINITION OF RESOURCES

The maps show environmentally sensitive areas along the coast, including the Arctic National Wildlife Refuge, the Gates of the Arctic National Park, and the Toolik Lake Natural Research Area. The maps also show the Trans-Alaska Pipeline and the various Native Corporation lands. The maps are overlaid with a grid of latitude and longitude coordinates.

SENSITIVE BIOLOGICAL RESOURCES

Fish

Arctic char, Chum salmon, Pink salmon, and other species of fish are found in the North Slope. The maps show the distribution of these species and the areas where they are most abundant.

Terrestrial Mammals

Caribou, Moose, and Dall's sheep are the main terrestrial mammals of the North Slope. The maps show the distribution of these mammals and the areas where they are most abundant.

Marine Mammals

Polar bears, seals, and whales are the main marine mammals of the North Slope. The maps show the distribution of these mammals and the areas where they are most abundant.

Birds

Arctic birds, including geese, swans, and ducks, are found in the North Slope. The maps show the distribution of these birds and the areas where they are most abundant.
